REC\_DS using C\_Week 2\_COD\_Question 4

Attempt : 1 Total Mark : 10 Marks Obtained : 10

Section 1: Coding

#### 1. Problem Statement

Ravi is developing a student registration system for a college. To efficiently store and manage the student IDs, he decides to implement a doubly linked list where each node represents a student's ID.

In this system, each student's ID is stored sequentially, and the system needs to display all registered student IDs in the order they were entered.

Implement a program that creates a doubly linked list, inserts student IDs, and displays them in the same order.

### **Input Format**

The first line contains an integer N the number of student IDs.

The second line contains N space-separated integers representing the student IDs.

## **Output Format**

The output should display the single line containing N space-separated integers representing the student IDs stored in the doubly linked list.

Refer to the sample output for formatting specifications.

#### Sample Test Case

void display(){

struct node\*temp=head;

printf("%d ",temp->id);

while(temp!=NULL){

```
Input: 5
   10 20 30 40 50
Output: 10 20 30 40 50
   Answer
   #include<stdio.h>
   #include<stdlib.h>
   struct node{
     int id:
     struct node*prev;
     struct node*next;};
   struct node*head=NULL;
   struct node*tail=NULL;
   void insert(int id){
   struct node*nnode=(struct node*)malloc(sizeof(node));
     nnode->id=id:
     nnode->next=NULL;
     if(head==NULL){
        nnode->prev=NULL;
        head=nnode:
        tail=nnode;}else{
        tail->next=nnode;
        nnode->prev=tail;
       tail=nnode;
     }}
```

```

                                                                           240701427
                        240/01421
       temp=temp->next;}
    printf("\n");}
int main(){
      int N,id;
      scanf("%d",&N);
      for(int i=0;i< N;i++){
        scanf("%d",&id);
        insert(id);
     }
      display();
      return 0;
   }
                                                                           240/0142/
                                                 240701427
                        240/01421
                                                                    Marks: 10/10
   Status: Correct
